

RIVERINA

FARMYARD PLUS

PRODUCT DESCRIPTION

RIVERINA FARMYARD PLUS is a high quality milk replacer for feeding calves and other infant animals. It contains protein, energy, vitamins and minerals for optimal growth and health. *RIVERINA FARMYARD PLUS* is suitable to be fed to calves from 4 days old and does not contain medication. For high performance in other infant animals a suitable replacer for the specific animal should be used.

TYPICAL COMPOSITION

Full cream milk powder, buttermilk powder, whey powder, skim milk powder, infant formula, vitamin and trace mineral premix.

DIRECTIONS FOR USE

- Colostrum should be fed for the first 3 days from birth.
- After 3 days on the dam commence feeding *RIVERINA FARMYARD PLUS*.
- To make one litre mix *RIVERINA FARMYARD PLUS* powder with half the volume of warm water (40°C). Mix well until the powder has dissolved. Top up to one litre with the remaining water (warm or cold).
- To avoid stomach upsets, do not mix the replacer at less or greater concentration.
- Rinse and clean equipment thoroughly after every feeding and disinfect regularly.
- To maintain a routine for the young animals, feed them at the same time each day.
- Feeding twice or more per day will lead to less digestive upsets as the stomach will not be overloaded.
- Cool, clean water in a separate drinker should be available at all times.
- Grazing animals will need access to a forage source (eg: pasture or high quality hay) at all times.
- A standard 250ml measuring cup weighs approximately 150g of *RIVERINA FARMYARD PLUS*. Due to variations in density we always recommend *RIVERINA FARMYARD PLUS* be weighed when mixing.

TYPICAL COMPOSITION OF ANIMAL MILK

Animal	Protein %	Fat %	Lactose %
Goat	3.1	3.5	4.4
Goat *150g	3.75	3.0	6.0
Sheep	5.4	6	5.1
Sheep *175g	4.4	3.5	7.0
Mare	2.0	1.8	6.5
Mare *100g	2.5	2.0	4.0
Alpaca	6.0	3.5	4.5
Alpaca *150g	3.75	3.0	6.0

* Recommended addition rate in one litre of *RIVERINA FARMYARD PLUS* for the intended species.

CALVES

ONCE A DAY FEEDING

Age	Feeds/Day	Litres per Feed	Mixing Rate per litre
0 - 3 days	0	4 - 6 litres	Colostrum only
4 - 10 days	2 (to start)	1.0 litre	300 grams
11 days until weaning	1	2.5 litres	300 grams

TWICE A DAY FEEDING

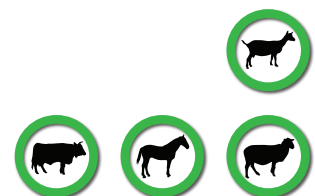

Age	Feeds/Day	Litres per Feed	Mixing Rate per litre
0 - 3 days	0	4 - 6 litres	Colostrum only
4 - 10 days	2	2.0 litres	150 grams
11 - 21 days	2	2.5 litres	150 grams
22 days until weaning	2	3.0 litres	150 grams

FORTIFYING FARMYARD PLUS WITH FRESH MILK

Age	Feeds/Day	Litres per Feed	Mixing Rate per litre
0 - 3 days	0	4 - 6 litres	Colostrum only
4 - 10 days	2	1.0 litres	100 grams

Breed	RIVERINA CALF REARER kg/day	Liveweight (kg)
Friesian Calves	1.0	90 - 110
Jersey Calves	0.75	65 - 85

RIVERINA

FARMYARD PLUS

LAMBS & KIDS

Mixing Rate:

- Goats 150g/litre of warm water.
- Sheep 175g/litre of warm water.

Age	mls per Feed	Feeds/Day
1 - 5 days	250	3 times
5 - 10 days	300	3 times
10 - 21 days	400	2 times
22 days until weaning	500	2 times

Start to wean after 4 weeks of age if healthy.

FOALS

This is only a **short term maintenance feed** until a specific foal milk replacer can be purchased.

- **Mixing Rate: 100g/litre warm water.**
- Feed at 10% of body weight.
- Suggested program below is an APPROXIMATE guide for a foal from a 500kg horse.

Age	mls per Feed	Feeds/Day
3 - 7 days	400	10
7 - 10 days	1200	5
10 - 28 days	1500 - 2500	4
29 days until weaning	3000 +	3

Start to wean at 3 months if in good condition.

CRIAS (ALPACA)

This is only a **short term maintenance feed** until a specific cria milk replacer can be purchased.

- **Mixing Rate: 150g/litre of warm water.**
- Feed at 10% of body weight.

Age	mls per Feed	Feeds/Day
3 - 7 days	100	6
8 - 14 days	200	6
15 - 28 days	300 - 400	4
29 days until weaning	500	3

Wean after 3 months if consuming a pellet and pasture, and in good condition.
