## MILK MAKER HI PRO DAIRY CONCENTRATE (Medicated)

### PRODUCT DESCRIPTION

RIVERINA MILK MAKER HI PRO DAIRY CONCENTRATE (Medicated) is a palatable protein, vitamin and mineral concentrate designed to be blended with grain to produce a balanced ration for lactating cows. Rumensin® is added for improved milk production.

### TYPICAL COMPOSITION

- Soybean meal & other vegetable protein meals, vegetable oil, molasses, limestone, dicalcium phosphate, magnesium oxide, salt, urea, Rumensin®, mould inhibitor, Riverina ruminant vitamin & mineral premix.
- Base raw materials may gradually change seasonally.

### DIRECTIONS FOR USE

- **DO NOT FEED DIRECTLY IN CONCENTRATED FORM. MIX ACCORDING TO DIRECTIONS.**
- Mix 4% - 6% MILK MAKER HI PRO DAIRY CONCENTRATE (40 - 60 kilogram per tonne) with processed grain to produce a balanced dairy meal. Thorough mixing is essential.
- The Grain mix including MILK MAKER HI PRO DAIRY CONCENTRATE is designed to be fed in conjunction with pasture, hay and/or silage.
- Feed up to 6kg of the grain mix per day split between two feeds to lactating cows.
- It is important that the feeding rates are gradually increased when cows enter the herd after calving.
- Feeding MILK MAKER SPRINGER PELLETS 4 weeks before calving is recommended to help reduce digestive problems eg. acidosis and some metabolic diseases eg. milk fever when cows commence milking.
- Start feeding the grain mix at 4kg/head/day split between 2 feeds and gradually increase to the desired feed intake over a minimum of 2-3 weeks.
- Additional buffering eg. Sodium Bicarbonate at 1.25% of grain/concentrate mix may be required if feeding high concentrate levels on good quality pasture.
- Ensure there is access to fresh, cool, clean water at all times.

### NUTRITIONAL ANALYSIS

PROTEIN	%	MIN:	56.00
UREA	%	MAX:	16.00
EQUIV. CP	%	MAX:	46.00
CALCIUM	%	MIN:	13.80
PHOSPHORUS	%	MIN:	4.40
SALT	%	:	6.00
MAGNESIUM	%	MIN:	1.00
VITAMIN A	iu/kg	:	201,000.00
VITAMIN D	iu/kg	:	24,000.00
VITAMIN E	mg/kg	:	750.00
COPPER	mg/kg	:	240.00

### NUTRITIONAL ANALYSIS (continued)

COBALT	mg/kg	:	10.00
IRON	mg/kg	:	1,000.00
MANGANESE	mg/kg	:	800.00
MOLYBDENUM	mg/kg	:	2.00
SELENIUM	mg/kg	:	2.00
ZINC	mg/kg	:	800.00

### FEATURES

- Contains high-levels of by-pass protein, calcium and phosphorus to give the correct balance of nutrients.
- Low non-protein nitrogen (urea).
- Added vitamins and trace minerals will help improve conception and general herd health.
- Helping to balance the overall diet will assist in improving production.

### QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into dairy nutrition and mixed using a variety of quality raw materials.

### MEDICATION

This concentrate contains Rumensin® which supplies Monensin sodium at 937.5 mg/kg to produce a final feed containing 38-56 mg/kg Monensin sodium for improved milk production, an aid in reducing the severity of non-clinical ketosis and as an aid in the control of bloat.

**Also available without Rumensin®.**

### WITHHOLDING PERIOD

Meat - Nil.

Milk - Nil.

### WARNING

**Do not feed to dogs, horses or other equines as it may prove fatal.  
Feed only to cattle.**

### STORAGE

[Cool, shaded, dry conditions, away from vermin.](#)

### EXPIRY

[Six months from the date of manufacture.](#)

### PACK SIZE

20kg woven polypropylene bags.

Bulk: Please contact your Riverina Sales Representative.
