

GRAIN MIXES

PRODUCT DESCRIPTION

RIVERINA's range of GRAIN MIXES are palatable grain feeds for a range of animals including birds, providing a valuable source of energy and protein.

Each mix has a different blend of grains to suit the requirements and needs of the animal. Each mix must be fed as a component of a balanced diet for the animal being fed.

Only quality dressed grains are used in these mixes. This will minimize wastage, ensure palatability and provide the highest level of nutrients.
