

RIVERINA

BROILER FINISHER PELLETS (Medicated)

PRODUCT DESCRIPTION

RIVERINA BROILER FINISHER PELLETS are a complete feed for finishing meat chickens. This feed is the second stage in a two stage feeding programme for growing meat chickens.

TYPICAL COMPOSITION

- Wheat, maize, sorghum, bran and pollard, a combination of protein meals (pulses, cottonseed meal, soybean meal, canola meal, sunflower meal, blood meal, meat meal), vegetable oil, limestone, mould inhibitor, sodium bicarbonate, salt, choline chloride, amino acids, Saleco®, Riverina vitamin & mineral premix.
- Base raw materials may gradually change seasonally.

DIRECTIONS FOR USE

- Feed from four weeks of age until slaughter weight is reached.
 - RIVERINA BROILER FINISHER PELLETS is a complete feed and no supplementary feeding is necessary.
 - Birds should have unlimited access to the feed (*ad lib*).
- Approximate feed intakes should be:

Age of Birds	Approximate Feed Consumption
Week 5	130 - 145 grams / bird / day
Week 6	160 - 175 grams / bird / day
Week 7	180 - 195 grams / bird / day
Week 8	200 - 220 grams / bird / day
Week 9	220 - 230 grams / bird / day

- The above feed intakes are only indicative. Feed intakes will vary with the season, variety of bird, lighting, shed conditions, disease status and other environmental conditions.
- To achieve fast growth rates good hygiene and management is necessary.
- A self-feeder should be used to help maximise growth rates. It is important to replace any build up of stale feed.
- Birds need clean, cool, fresh water available at all times. Any wet litter near water points should be removed regularly.

FEATURES

- Produced as a pellet, so that feed wastage is minimised, digestibility is improved and separation of the feed is eliminated, ensuring a consistent intake of nutrients.
- Supplies essential nutrients for growth.
- RIVERINA BROILER FINISHER PELLETS contain digestible ingredients for chickens.
- Protein meals provide natural sources of essential amino acids. Methionine and Lysine are added to balance the protein level.
- Contains essential vitamins and minerals.

QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into poultry nutrition and mixed using a variety of quality raw materials.

MEDICATION

This feed contains Saleco® which supplies Sodium salinomycin at 60mg/kg as an aid in the prevention of coccidiosis caused by certain *Eimeria* species.

WITHOLDING PERIOD

Meat - Nil.

Eggs - DO NOT USE in birds laying eggs for human consumption or within 7 days of laying when eggs or egg products are to be used for human consumption.

WARNING

Do not feed to horses or other equines.

Do not feed to birds being treated with Tiamulin.

Contains RAM - do not feed to cattle, sheep and other ruminants.

Feed only to broiler chickens.

STORAGE

Cool, shaded, dry conditions, away from vermin.

EXPIRY

Six months from the date of manufacture.

PACK SIZE

20kg woven polypropylene bags.

Bulk: Please contact your Riverina Sales Representative.

Saleco® is a registered trademark of International Animal Health Products Pty Ltd.
This feed is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
Ver: 7.0

Issue Date: October 2015
