

RIVERINA

SORGHUM FREE LAYER MASH

PRODUCT DESCRIPTION

RIVERINA SORGHUM FREE LAYER MASH is a complete feed for domestic laying hens from point of lay. This feed is the final stage in a three stage-feeding programme for laying hens.

TYPICAL COMPOSITION

- Wheat, cracked corn, bran & pollard, combination of protein meals, vegetable oil, dicalcium phosphate, calgрит, molasses, salt, bentonite, mould inhibitor, Riverina vitamin & mineral premix.
- Base raw materials may gradually change seasonally.

DIRECTIONS FOR USE

- Domestic laying hens should have unlimited access to the feed (*ad lib*).
- Feed intakes are typically 90 to 140 grams/bird/day and will vary with the season, variety of bird, lighting, shed conditions, disease status and other environmental conditions.
- Green feed and vegetable scraps can add some variety but it should only be a small part of the diet as egg production can suffer. Avoid feeding any mouldy feed.
- Clean, cool, fresh water should be available at all times.
- When hens enter the end of lay period, shell quality may deteriorate. Calgрит (coarse limestone) or shellgрит offered *ad lib* may help improve shell quality.

NUTRITIONAL ANALYSIS

PROTEIN	%	MIN:	15.00
CALCIUM	%	:	3.50
PHOSPHORUS	%	MIN:	0.60
FAT/EE	%	:	3.00

SELENIUM	mg/kg	:	0.20
ZINC	mg/kg	:	72.00

FEATURES

- Balanced feed supplying essential nutrients for layers.
- A quality feed for reliable egg production.
- Formulated as a general purpose laying feed for household laying hens.
- Whole and cracked grains are included to ensure that hens readily eat the mash.
- The inclusion of Calgрит will ensure that the hen receives a steady supply of calcium for good egg shell quality.
- Includes a protein, vitamin and mineral pellet.
- No sorghum.

QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into poultry nutrition and mixed using a variety of quality raw materials.

WITHHOLDING PERIOD

Nil.

WARNING

Contains RAM - do not feed to cattle, sheep and other ruminants.
Feed only to laying hens.

STORAGE

Cool, shaded, dry conditions, away from vermin.

BEST BEFORE

Six months from the date of manufacture.

PACK SIZE

20kg woven polypropylene bags.

This feed is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
 Ver: 7.0

Issue Date: October 2015
