

LAMB CONCENTRATE 5% + BOVATEC

PRODUCT DESCRIPTION

RIVERINA LAMB CONCENTRATE 5% + BOVATEC is a vitamin and mineral concentrate with Lasalocid and Acid Buf for feedlot lambs. The concentrate is to be mixed with grain and fed with a good quality palatable roughage source.

TYPICAL COMPOSITION

- Wheat, bran and pollard, vegetable oil, limestone, mono-dicalcium phosphate, magnesium oxide, potassium chloride, ammonium sulphate, salt, lasalocid sodium, Acid Buf, yeast, mould inhibitor, flavouring, Riverina sheep vitamin & mineral premix
- Base raw materials may gradually change seasonally.

DIRECTIONS FOR USE

DO NOT FEED IN CONCENTRATED FORM.

FEEDLOT: Add *RIVERINA LAMB CONCENTRATE 5% + BOVATEC* with 95% grain and thoroughly mix to form a balanced feedlot ration for lambs. Roughage must be available at all times. Gradually introduce the high grain diet over a three week period.

NOTE: Additional lime (calcium source) and protein source may be needed to balance some diets depending on grain protein level and type of lamb. Consult with your Riverina Representative for assistance in balancing your feedlot diet.

The following gives a sample introduction program for feedlot lambs.

Days on Feed	Inclusion Rates		
	Grain mix	Concentrate	Roughage
1 - 2	Nil	Nil	100%
3 - 7	35%	5%	60%
8 - 12	45%	5%	50%
13- 17	55%	5%	40%
18 - 22	65%	5%	30%
23 and over	75%	5%	20%

PASTURE BASED: Add *RIVERINA LAMB CONCENTRATE 5% + BOVATEC* with 95% rolled grain and thoroughly mix. Use in a self-feeder provided adequate palatable pasture is available or good quality palatable hay is supplied *ad lib* in a hay rack. Self-feeders must initially have the slides adjusted to pencil width to restrict intakes. Gradually increase slide width to allow more access to the feed over a three week period.

Ensure that there is ample access to clean water at all times

FEATURES

- Supplies vitamins and minerals required for growth. It helps complement the nutrients present in the grain, to create a balanced ration.
- Acid Buf to buffer the rumen and help reduce acidosis. It is also an excellent source of bio-available minerals.
- Added ammonium sulphate to help with urinary calculi.
- Yeast added to support immune function and digestive health. It assists in modulating rumen pH, and dry matter intake.

QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into sheep nutrition.

MEDICATION

This feed supplies Lasalocid Sodium at 660mg/kg to provide 33mg/kg of Lasalocid Sodium in the grain mix for improved liveweight gains and feed conversion efficiency and for the control of clinical signs of ovine coccidiosis.

WITHHOLDING PERIOD:

Nil

WARNING

Do not feed to dogs, horses or other equids as it may prove fatal.
Do not use in lactating ewes where milk or milk products may be used for human consumption.
Feed as directed.

STORAGE

Cool, shaded, dry conditions away from vermin.

EXPIRY DATE

Six months from the date of manufacture.

PACK SIZE

25kg woven polypropylene bags.
 Bulk: Please contact your Riverina Sales Representative

This feed is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
