

RIVERINA

LAMB FEEDLOT PELLETS

PRODUCT DESCRIPTION

RIVERINA LAMB FEEDLOT PELLETS are for fattening lambs and sheep in penned or paddock environments and must be fed with a roughage source.

TYPICAL COMPOSITION

- Barley, wheat, maize, sorghum, bran and pollard, urea, vegetable protein meals, molasses, vegetable oil, limestone, sodium bentonite, dicalcium phosphate, buffer, ammonium sulphate, salt, mould inhibitor, Bovatec®, Riverina ruminant vitamin & mineral premix.
- Base raw materials may gradually change seasonally.

DIRECTIONS FOR USE

- THIS IS NOT A COMPLETE FEED.** It has been designed to supplement good quality hay and/or pasture feeding.
- During the introduction period it is critical there is enough feeder space to allow all lambs to eat at the same time.
- When introducing stock to RIVERINA LAMB FEEDLOT PELLETS, feed intakes should be increased gradually over a 2 to 3 week period to minimise the risk of acidosis.
- When using self feeders the adjustment of the slides is very important so that the target intakes below are achieved.
- The slides should be adjusted to a pencil width when feeding starts.
- Always ensure stock have access to clean, cool, fresh water at all times.
- Good quality hay or pasture must be available at all times to ensure lambs and sheep have good roughage intakes.
- Sample program for self feeders/troughs.

Feeding Period	Target Pellet Intake	Roughage Intake
Day 1 & 2	Nil	<i>Ad Lib</i>
Day 3	100g	<i>Ad Lib</i>
Day 4	200g	<i>Ad Lib</i>
Day 5	300g	<i>Ad Lib</i>
Day 6	400g	Reducing slowly to at least 10% of total intake by day 13
Day 7	500g	
Day 8	600g	
Day 9 - 12	700	
Day 13 +	Ad-lib

FEATURES

- This feed provides a wide range of essential nutrients required for growth and maintenance.
- RIVERINA LAMB FEEDLOT PELLETS are suitable to be fed to all types of lambs and sheep. By supplying the right balance of nutrients and fed in conjunction with roughage this ration will promote rapid growth.
- RIVERINA LAMB FEEDLOT PELLETS can also be fed as a supplement to pasture or as a maintenance ration in times of drought.
- Buffers are included to reduce the risk of acidosis.
- Contains acidifiers to reduce the incidence of "water belly".

QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into ruminant nutrition.

MEDICATION

This feed contains Bovatec® which supplies Lasalocid sodium at 33 mg/kg to aid in the reduction of faecal shedding of coccidia, for improved liveweight gains and feed conversion efficiency.

WITHHOLDING PERIOD

Meat - Nil.
Wool - Nil.

WARNING

Do not feed to horses or other equines as it may prove fatal.

Do not feed to lactating ewes where the milk or milk products may be used for human consumption.
Feed only to lambs and sheep.

STORAGE

Cool, shaded, dry conditions, away from vermin.

EXPIRY

Six months from the date of manufacture.

PACK SIZE

20kg woven polypropylene bags.
Bulk: Please contact your Riverina Sales Representative.

Bovatec® is a registered trademark of Alpharma.

This feed is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
Ver: 7.0

Issue Date: October 2015
