

RIVERINA

MILK MAKER SPRINGER (DCAD) PELLETS

PRODUCT DESCRIPTION

RIVERINA MILK MAKER SPRINGER PELLETS are a palatable anionic salt preparation specially formulated to be fed to pregnant, dry dairy cows in the 4 weeks prior to calving. Research has shown anionic salts help reduce milk fever, subclinical milk fever, retained placenta and improve milk production in the subsequent lactation.

TYPICAL COMPOSITION

- Barley, sorghum, wheat, bran and pollard, anionic salts, flavouring, Yea-Sacc®, mould inhibitor, Riverina ruminant vitamin & mineral premix.
- Base raw materials may gradually change seasonally.

DIRECTIONS FOR USE

- **THIS IS NOT A COMPLETE FEED.**
- MILK MAKER SPRINGER PELLETS are designed to be fed at 3 kilograms/head/day for the 4 week period prior to calving in conjunction with pasture.
- Feed only to dry, pregnant dairy cows.
- Individual feeding is ideal but can be offered in a self-feeder. Slides need to be adjusted so feed intakes do not exceed 3kg/head/day.
- Dry pregnant cows & heifers should be kept on an unfertilised late vegetative/ mature pasture or cereal hay.
- Avoid pastures high in potassium as this will reduce the effectiveness of the product. This includes lucerne, maize silage, tropical pastures, molasses & short lush pasture.
- **DO NOT FEED AFTER CALVING.**
- Ensure cool, fresh, clean water is available at all times.

NUTRITIONAL ANALYSIS

PROTEIN	%	MIN:	12.00
CALCIUM	%	MIN:	0.60

ZINC	mg/kg	:	40.00

FEATURES

- A high negative DCAD balance (Na+K-Cl-S).
- Produced in pellet form to avoid separation of ingredients and improve intake.
- Special flavour has been included to help disguise the mineral taste of the anionic salts.
- Yea-Sacc® added to enhance digestion and feed efficiency.
- Clients using MILK MAKER SPRINGER PELLETS have commented on the marked improvement in the health of their lactating cows and a reduction in calving and post calving problems. The cost of treating these problems has been significantly reduced.

QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into dairy nutrition and mixed using a variety of quality raw materials.

WITHHOLDING PERIOD

Meat - Nil.

Milk - Nil.

WARNING

- **Do not exceed 3kg/head/day intake.**
- **Feed only to dry cows/heifers one month prior to calving.**
- **Do not feed after calving.**

STORAGE

[Cool, shaded, dry conditions, away from vermin.](#)

BEST BEFORE

[Six months from the date of manufacture.](#)

PACK SIZE

20kg woven polypropylene bags.

Bulk: Please contact your Riverina Sales Representative.
