

RIVERINA

COMPLETE DUCK GROWER MASH

PRODUCT DESCRIPTION

RIVERINA COMPLETE DUCK GROWER MASH is a complete feed for growing ducks.

TYPICAL COMPOSITION

- Wheat, maize, sorghum, bran and pollard, a combination of protein meals (pulses, cottonseed meal, soybean meal, canola meal, sunflower meal, blood meal, meat meal), vegetable oil, limestone, salt, choline chloride, amino acids, mould inhibitor, Riverina vitamin & mineral premix.
- Base raw materials may gradually change seasonally.

DIRECTIONS FOR USE

- COMPLETE DUCK GROWER MASH is a complete feed for growing ducks from hatching to slaughter. No supplementary feeding is necessary.
- Ducks should have unlimited access to the feed (*ad lib*). A self-feeder is ideal.
- The feeder should be in an elevated position and placed so ducklings cannot soil the feed. It is important to replace any soiled feed regularly so it remains fresh and palatable.
- For rearing laying ducks, up to 20% grain can be mixed into the COMPLETE DUCK GROWER MASH from 12 weeks of age.
- From two weeks prior to lay, it is recommended that a 50/50 blend of COMPLETE DUCK GROWER MASH and RIVERINA BLUE LABEL LAYER be fed until the start of lay. This will assist in this pre-lay period when the reproductive tract is nearing maturity.
- When the birds start to lay, feed RIVERINA BLUE LABEL LAYER.

During this period approximate feed intakes should be:

Age of Birds	Approximate Feed Consumption
Day Old - 1 Week	30 - 40 grams / bird / day
2 Weeks	80 - 100 grams / bird / day
3 Weeks	150 - 160 grams / bird / day
4 Weeks	180 - 190 grams / bird / day
5 Weeks	200 - 215 grams / bird / day
6 Weeks	225 - 235 grams / bird / day
7 Weeks	235 - 245 grams / bird / day
8 Weeks	240 - 250 grams / bird / day

- Feed intakes will vary with the season, variety of bird, shed conditions, disease status and other environmental conditions.
- Environmental conditions including temperature and hygiene are of vital importance during the rearing period.
- Ducklings need to be brooded for 10-14 days.
- Ducklings need clean, cool, fresh water available at all times as they are very susceptible to dehydration.

FEATURES

- COMPLETE DUCK GROWER MASH is produced as a coarse mash.
- Supplies essential nutrients for growth.

QUALITY PRODUCT

- Manufactured to strict quality control standards for incoming raw materials and the finished product.
- Formulated in accordance with current research into duck nutrition and mixed using a variety of quality raw materials.

WITHHOLDING PERIOD

Meat - Nil.
Eggs - Nil.

WARNING

Monitor flock for coccidiosis outbreaks. Coccidiosis control programs may need to be included for a particular flock, property or situation and veterinary advice may be necessary.

Contains RAM - do not feed to cattle, sheep and other ruminants.

Feed only to ducks.

STORAGE

[Cool, shaded, dry conditions, away from vermin.](#)

BEST BEFORE

[Six months from the date of manufacture.](#)

PACK SIZE

20kg woven polypropylene bags.

Bulk: Please contact your Riverina Sales Representative.

This feed is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
Ver: 7.0

Issue Date: October 2015
