

CHICK STARTER CRUMBLES (MEDICATED)

Complete feed for layer chicks

Product Description

RIVERINA CHICK STARTER CRUMBLES (Medicated) is a complete feed for layer chicks from hatch until approximately 6 weeks of age. It can be used as the first stage in a three-stage feeding program for laying hens.

Typical Composition

- Ingredients selected from: Cereal grains, Bran & Pollard, Legumes, Plant protein meals, Animal protein meals, Calcium and Phosphorous sources, Sodium sources, Vegetable Oil, Molasses, Amino Acids, Choline Chloride, Enzymes, Mycotoxin Binders, Mould Inhibitor, Betaine, Salinomycin Sodium, Riverina Vitamin and Mineral Premix.
- Base raw materials may gradually change seasonally.

Directions For Use

- Feed to layer chicks from hatch until approximately 6 weeks of age.
- This is a complete feed and no supplementary feeding is necessary.
- Chicks should have unlimited access to the feed (ad lib) without restriction.
- For the first three days of feeding, it is best to spread some feed on large shallow trays or newspaper to encourage the chicks to eat.
- Change the feed regularly so it remains fresh and palatable. After this period, a self-feeder can be used.
- Clean, cool, fresh water should always be available.

Approximate Feed Intakes

Age of Birds	Approximate Feed Consumption
Day old to one week	5 - 10 grams / bird / day
2 weeks	10 - 20 grams / bird / day
4 weeks	25 - 30 grams / bird / day
6 weeks	35 - 40 grams / bird / day

Medication

- This feed contains Salinomycin Sodium at a rate of 60 mg/kg as an aid in the prevention of coccidiosis caused by certain Eimeria species.

Withholding Period

- MEAT:** Zero (0) days
- EGGS:** Do not use in birds laying eggs for human consumption or within 7 days of laying when eggs or egg products are to be used for human consumption or processing. If laying takes place within 7 days, those eggs or egg products must not be used or processed for human consumption.

Storage

Cool, shaded dry conditions, away from vermin.

Pack Size

20kg bags.

Bulk: Please contact your Riverina Sales Representative.

Nutritional Analysis

Protein (min)	20	%
Crude Fibre (max)	4.5	%
Energy ME (min)	11.9	MJ/kg
Lysine (min)	1.1	%
Methionine (min)	0.5	%
Calcium (min)	1	%
Ava Phosphorous (min)	0.45	%
Salt (max)	0.4	%
Linoleic Acid (min)	1.2	%
Choline (min)	1,800	mg/kg

Vitamins & Trace Minerals added:

Vitamins A, D3, E, K, B1, B2, B3, B5, B6, B12, Folic Acid, Biotin, Cobalt, Copper, Iron, Iodine, Manganese, Molybdenum, Selenium and Zinc.

Nutritional levels are on an as fed basis.

Features

- High protein and energy chick starter feed which is nutritionally balanced with natural ingredients and contains all of the essential nutrients required for bird growth, health and vitality.
- Produced as a fine crumble which eliminates separation, minimizes feed wastage and improves digestibility.
- Contains high quality digestible ingredients for young chickens.
- Contains a coccidiostat as an aid in the prevention of Coccidiosis.
- Multiple protein meal sources are included to provide essential amino acids and other nutrients.
- Balanced calcium and phosphorous levels to support bone growth and health.
- Added enzymes to improve nutrient digestibility, performance and litter quality.
- Mycotoxin binders are included for extra insurance.
- Lysine, methionine and other amino acids are included to balance the birds amino requirements.
- Contains high levels of vitamins and minerals which are essential nutrients for growth, immunity and well-being.

Quality Product

- Manufactured to strict quality control standards for incoming raw materials and the finished product.

Warning

This product must not be fed to horses, dogs or any other animal or bird. While using this product, other anticoccidial drugs should not be added to the feed or water, nor should it be fed concurrently with Tiamulin or other antibiotics.

Contains RAM - do not feed to cattle, sheep and other ruminants.
