Pregnant Bitches

Maintain normal feeding during the first six weeks. Gradually increase quantities to approximately double the normal feeding rate during the final three weeks of pregnancy. Supplements with whole milk if possible.

Nursing Bitches

The bitch is feeding herself and her pups, therefore increase her **RIVERINA TOP DOG® PREMIUM** intake by approximately three times her normal amount, depending on the size of her litter. Supplement with whole milk if possible.

Working Dogs

Requiring one-and-a-half to two times feed than required for maintenance. Adjust the feeding rate so the dog maintains a healthy weight.
