

AMBOS ALL PURPOSE PELLETS

A convenient and economic multi-species pellet feed formulated for supplementary feeding to a wide range of farm animals such as **Cattle, Sheep, Goats, Alpacas, Deer, Horses, Rabbits, Poultry and Pigs.**

AVAILABLE IN BULK, BULK BAGS AND 20KG BAGS.

FEATURES:

- A unique pellet feed especially suited to farms with multi-species feeding requirements.
- Low starch formulation and added buffers assist in reducing the risk of acidosis.
- RAM, Medication and Urea free pellet.

TYPICAL COMPOSITION:

Ingredients selected from: Cereal grains, Legumes, Bran & Pollard, Plant protein meals, Almond co-products, Calcium and Phosphorous sources, Sodium sources, Molasses, Buffers, Mycotoxin Binder, Mould Inhibitor, Canola Oil, Betaine, Riverina Vitamin and Mineral Premix. Base raw materials may gradually change seasonally.

SPECIAL INCLUSIONS & MEDICATIONS:

None. This product is antibiotic and urea free.
Free from animal protein meals/Restricted Animal Material (RAM).

QUALITY PRODUCT:

Manufactured to strict quality control standards for incoming raw materials and the finished product.

NUTRITION INFORMATION:

Protein (min) 13.5%

Crude Fibre (max) 10%

Energy (ME) (min) 10MJ/kg

Starch (max) 23%

Calcium (min) 1%

Phosphorus (min) 0.4%

Salt (max) 0.3%

Vitamins A, D3, E, K, B1, B2, B3, B5, B6, B12, Folic Acid, Biotin, Cobalt, Copper, Iron, Iodine, Manganese, Molybdenum, Selenium and Zinc.

Nutritional Levels are on an as fed basis

Daily maintenance feeding rate

Cattle, Sheep, Goats, Alpacas, Deer	Horse & Rabbits	Poultry & Pigs
1% of bodyweight plus forage	1% of bodyweight plus forage	Free choice without restriction

Withholding Period: Nil

Warnings: Nil

Storage: Cool, shaded dry conditions, away from vermin.

Directions of use:

Controlled and gradual feeding of pellets is important when introducing animals to a change in their diet. Give special attention when introducing the pellets to excessively hungry or drought-affected animals. Over the first 10 days, feed small, controlled amounts of pellets, starting with 0.2% of bodyweight per day, and gradually increase the amount fed over this period. For Ruminants (Sheep, Goats, Deer, Alpacas etc) and Horses, always ensure they have access to an adequate volume of an effective fibre forage source such as hay, straw, mature pasture etc. Ensure that clean fresh water is available at all times.

This feed is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
